

we chatted briefly and then went out. at 8PM I went to Simpson to pick up John K. I found him not there. I went down to City Hall & found RGT not there. I sat in the car in front of City Hall & roared & RGT soon arrived. We went down to Mister Donut for coffee & as we sat there, JOB came in. His father had seen my car & told John & John came instantly down to City Hall & Mister Donut. We chatted for a little bit & then John went up to 302 and began working on the door. RGT and I went up when we had finished our coffee. We sat and talked for about 30 minutes and then JOB went to 46 Canaan & I transported <sup>there</sup> on oak board that he wanted to cut for the door frame in 302; RGT went back to his laboratory. John asked me in for a cup of tea & I went in. He showed me some new D+H materials that came into his mother's store from the Jason Williams estate: animal reports and such. Jason Williams (whom I am sure HRP knows/knew) had a fair quantity of information on the *Starrucca viduus*. JOB & I must have a talk one of these days. I never seem to be able to talk to him even though I am in his presence rather often. There seems to be always reason why I can not. With each passing day, John appears to be more and more immersed in the bourgeois world of his parents. When the "rut" becomes too deep, you can not get out of the rut. I worry about John's pretty & non-bourgeois self. He is in need of a huge/dramatic/significant jolt out of his complacency, and it must be done before it is too late.
